WELLS FARGO FOUNDATION FACULTY EXCELLENCE

SUMMER STIPENDS PROGRAM (NEW FACULTY)

Untenured junior faculty members affiliated with the Charlotte Research Institute are invited to submit proposals for a Wells Fargo Faculty Fellowship. A Wells Fargo Foundation endowment gift to UNC Charlotte makes these awards possible. Fellowships are competitive research grants and are awarded on the basis of the submitted proposals. Wells Fargo Summer Stipends are intended to assist junior faculty during their first summer at UNC Charlotte. Accordingly, stipend proposals may be submitted by newly recruited faculty or by recruiting departments as part of the initial offer of employment.

We request that proposals for no less than \$1,000 and no more than \$4,000 be submitted in either category. Proposals should specifically address the impact of the proposed work on the mission of the Charlotte Research Institute. Proposers are asked to append, on a single sheet, a biographical sketch and a summary of their research directions and goals to their proposal. Department chairs proposing on behalf of new faculty recruits should extract this information from the candidate's vita.

The proposals may be submitted to the executive director until March 31st. A committee comprised of the Institute's center directors, the executive and associate directors will make the final decision. The executive director will, following consultation with all of the committee members, make the award decision.

A report on the results of the accomplishments that resulted from the support will be required within one month of the end of the term of support.
